Attachments: RARE Presentation.pptx

Hi Roger – I made some of the edits we discussed but I would still like to revisit my slides. I just thought I'd send the progress in the meantime. I tried to add the facility photo, but it came with the air emissions/soil deposition diagram as well.

Let me know what you think or if there are any other images you would like me to add. I am meeting w Andy at 3-330 but then I'm free afterward.

Thanks!

Leah

Hi Leah,

I have two additional small changes to my slides. Your slides all look great. On slide 1, we should include Jennifer Fulton as part of the RARE team. (Jennifer's group will be undertaking most of the sampling which is significant.) And on slide 2, please change "HFPO-DA" to "GenX" for consistency. That's all for now. Thanks.

Hi Roger and Regina – please see the updated presentation with my slides added toward the end. Thanks for putting this together Roger! Feel free to edit as well.

Leah

Leah,

Here are the PP slides I intend on using. Feel free to tweak them as you see fit. Thanks.
